

About Us

We believe in superior work and excellent service!

Our company was started with one goal in mind. To provide quality products and services with integrity. We practice the "Less schtick and more fix" method. We won't pressure to sell anyone ever, and we will provide you with all information regarding any limitations presented by products or conditions.

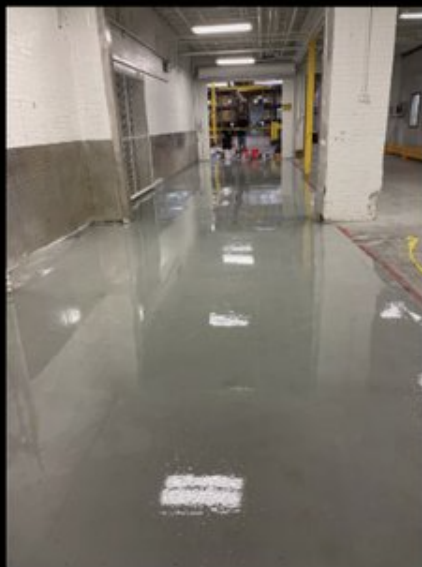

With a combined experience of 40 plus years our team's goal is to get our customers their greatest value. We have put together a team of experienced personnel that have seen their share of the good and bad in this business. We are together now because of our belief that the right way is to be honest, not to overpromise, be prompt and courteous, show up on time and communicate constantly with clients.

Service, quality, integrity.
specializing in all of your flooring
and improvement needs

Epoxy Coatings

Coatings and floor sealers are the best choice for floors that experience very heavy traffic, movement of heavy equipment, or environments prone to penetrating stain.

Our services

Overlayment
Epoxy Coatings
Concrete Restoration
Stained Polished
Concrete
Concrete Grind and
Polish
Interior Paint
Hardwood Flooring

Overlayment

Our self-leveling products provide the highest degree of surface flatness and strength for a restoration treatment.

The overlayment surface is a very economical way to repair older buildings without severe demolition.

Concrete Grind and Polish

This is SQI Companies core flooring service. The most cost effective and highly aesthetic flooring system. This type of floor is both pleasing to view and known for durability.

Wood Flooring

A great way to give your residential home or office a beautiful up to date remodel.
